

FARM TO FOREIGN EXPORTS ENTREPRENEURSHIP DEVELOPMENT MULTI STATE COOPERATIVE SOCIETY Ltd.,

REG., No : MSCS/CR/1295/2020

 www.feedorg.com

ALL ABOUT FEED

FEED Main Objective:

FEED is a multi-state cooperative society working for the uplift of exports from all corners of India. We provide **crucial technical software and social platform** connecting:

“ Farmers, Traders, MSME industries & new entrepreneurs”
in Rural and Semi urban areas

with

“International markets, Export promotional councils, Central and State governments, Banks and Financial institutes, Ports” by organizing **Export promotional meetings, forming FPOs (product wise)** and supporting the FPOs with technical information & support on processing export orders.

WHY FEED WAS INITIATED

- ⊕ To reach the government's vision of Doubling farmers income...
- ⊕ To enhance the agri exports from farmers & MSMEs...
- ⊕ To develop International standard Agri marketing infrastructure...
- ⊕ To develop export entrepreneurship in new entrepreneurs...

Thus, FEED was initiated to form Export based FPOs through EPMs in Multi states.

Multi State Cooperative Societies ACT, 2002

An Act to consolidate and amend the law relating to co-operative societies, with objects not confined to one State and serving the interests of members in more than one State, to facilitate the voluntary formation and democratic functioning of co-operatives as people's institutions based on self-help and mutual aid and to enable them to promote their economic and social betterment and to provide functional autonomy, was being felt necessary by the various cooperative societies, and federation of various cooperative societies as well as by the Government. In order to achieve the objective **The Multi State Cooperative Societies Bill** was introduced in the Parliament. The bill having been passed by both the Houses of Parliament received the assent of the President on 3rd July 2002 and it came on the Statute Book as The Multi State Cooperative Societies ACT 2002 (39 of 2002).

Registered Societies from 1986 onwards under MSCS, 2002

Registered Societies from 1986 onwards under MSCS, 2002

Registered Societies from 1986 onwards under MSCS, 2002

Keypoints of Multi State Cooperative Societies ACT, 2002

25. Persons who may become members

- (1) No person shall be admitted as a member of a multi-state cooperative society except the following, namely-
 - (a) an individual, competent to contract under section 11 of the Indian Contract Act, 1872 (9 of 1872);
 - (b) any multi-state cooperative society or any cooperative society;
 - (c) the Central Government;
 - (d) a State Government;
 - (e) the National Cooperative Development Corporation established under the National Cooperative Development Corporation Act, 1962 (26 of 1962);
 - (f) any other corporation owned or controlled by the Government;
 - (g) any Government company as defined in section 617 of the Companies Act, 1956 (1 of 1956);
 - (h) such class or classes or persons or association of persons as may be permitted by the Central Registrar having regard to the nature and activities of a multi-state cooperative society.

61. Government aid to multi-state cooperative societies

Notwithstanding anything contained in any law for the time being in force, the Central Government or a State Government, on receipt of request from a multi-state cooperative society and with a view to promoting cooperative movement, may,-

- (a) subscribe to the share capital of a multi-state cooperative society;
- (b) give loans or make advances to a multi-state cooperative society;
- (c) guarantee the repayment of principal and payment of interest on debentures issued by a multi-state cooperative society;
- (d) guarantee the repayment of share capital of a multi-state cooperative society and dividends thereon at such rates as may be specified by the Central Government or the State Government;
- (e) guarantee the repayment of principal and payment of interest on loans and advances to a multi-state cooperative society;
- (f) give financial assistance in any other form, including subsidies, to any multi-state cooperative society; and
- (g) provide aid to any other multi-state cooperative society on such terms and conditions as may be prescribed.

48. Nominee of Central Government or State Government on the board

- (1) Where the Central Government or a State Government has subscribed to the share capital of a multi-state cooperative society, the Central Government or the State Government, as the case may be, or any person authorised by the Central Government or the State Government shall have right to nominate on the board such number of persons as its members on the following basis, namely:-
 - (a) where the total amount of issued equity share capital held by the Central Government or the State Government is less than twenty six per cent of the total issued equity share capital, one member of the board;
 - (b) where the total amount of issued equity share capital held by the Central Government or the State Government is twenty-six per cent or more but less than fifty-one per cent of the total issued equity share capital, two members of the board;
 - (c) where the total amount of issued equity share capital held by the Central Government or the State Government is fifty-one per cent or more of the total issued share capital, three members of the board;

Provided that the number of such nominated persons shall not exceed one third of the total number of members of the board:

Provided further that where the Central Government or a State Government has guaranteed the repayment of principal and payment of interest on debentures issued by a multi-state cooperative society or has guaranteed the repayment of principal and payment of interest on loans and advances to a multi-state cooperative society or has given any assistance by way of grants or otherwise to a multi-state cooperative society, the Central Government or the State Government in this behalf, as the case may be, or any person authorised by the Central Government, shall have the right to nominate person on the board of such a society in the manner as may be prescribed.

- (2) A person nominated under this section shall hold office during the pleasure of the Government by which he has been so nominated,

FEED INTRODUCTION

FARM TO FOREIGN EXPORTS ENTREPRENEURSHIP DEVELOPMENT MULTI STATE COOPERATIVE SOCIETY LTD. (FEED) is a multi-state cooperative society registered under **MSCS Act, 2002 with Regd. No. MSCS/CR/1295/2020** currently operating in the states of Andhra Pradesh and Telangana.

We're the first-of-its kind export based multi-state cooperative society working for the uplift of exports from farmers, new entrepreneurs and MSMEs from rural and semi-urban areas through the concept of product based **FARMER PRODUCER ORGANISATIONS (FPOs)** by conducting **EXPORT PROMOTIONAL MEETINGS** in all districts of India.

FEED connects with around **15+ Central Government departments**, Export Based Organizations (Banks, Ports, CHAs, Export promotion councils, Commodity boards, Embassies, FIEO, DGFT, NABARD, NCDC, ECGC, SFAC etc.) to ensure updated data dissemination on export prices, govt. schemes to FEED members (FPOs, MSMEs etc.)

FEED signs **MoU with State Governments** to develop export entrepreneurship & establish value addition units in order to enhance exports and economy of the states.

We promote exports by conducting **EXPORT PROMOTIONAL MEETINGS** in every district. We tend to create awareness on exports and inform the product potentiality of various agricultural commodities in International markets through our export promotional meetings.

FEED forms **PRODUCT-BASED EXPORT ORIENTED FPOs** for the **top 10 products** in every district. FEED provides hand-holding support to such FPOs formed throughout the export cycle. We also assist the FPOs in establishing processing units to enhance their income levels and help them reach the International quality standards.

All in all, FEED's vision is to provide the FPOs & MSMEs the exposure to best prices in both domestic and international markets and render end-to-end support in capturing such markets.

Indian Export Key Findings & Untapped Export Potential

India stands second in global agricultural production and is among the 15 leading exporters of agricultural products in the world. India currently claims the 13th position in agricultural exports around USD 39 billion in 2019. The WTO reports revealed that India might become the world's fifth-largest exporter of agricultural commodities, surpassing Thailand and Indonesia.

Data from FAO suggests **India has USD 97.02 billion worth untapped export potential across 19 agro-commodities.**

- India has less than 1% share in world exports of beverages, floriculture, cereal preparations, flour and starch, processed fruits and vegetables. India can tap USD 1.46 billion worth import demand for non alcoholic beverages in South Asia and ASEAN countries. Although ASEAN countries have strong demand for fruit juices, India is not a major exporter of these items to ASEAN.

- India is the second largest producer of fruits and vegetables in the world and yet its **share in world exports is 1.7-1.8%**. India is the largest producer of papaya, lemons and limes; but **meets hardly 3.2% of the world import demand for papaya, 0.5% of world import demand for lemons and limes** India caters to a Minuscule 0.3% of world imports of orange and 0.2% of pineapple, despite being major producer of these fruits. India's export of fruit juices is largely restricted to Nepal, Bhutan and Sri Lanka in South and South East Asia.

- India doubled its world market share in cereals and marine product exports between 2006 and 2018. This success should be replicated in other farm commodities as well.

- India is said to have the second largest resource of bamboo after China, with 136 species and around 13.96 million hectare of land under bamboo cultivation, the highest in the world. Despite this, **India exports hardly USD 64 million worth of value added bamboo products, which caters to hardly 2.83% of world import (of USD 2.26 billion).**

Gross Agriculture Production – Country wise

Agriculture Exports by various countries around the world

India ranks 13th globally in terms of agriculture exports

1.FEED FPOs

FEED brings into practice the statement “**Think locally, Act Globally**” quoted by Honourable Prime Minister Shri Narendra Modi Ji by formation of Farmer Producer Organisations (FPOs) under district level (LOCAL) and leading them to International markets (GLOBAL). FEED forms **Export-Oriented FPOs** for the **top 10 products in every district** with a goal of “**Doubling Farmers’ income**” and “**Increasing the Agri exports**”.

Registration of FPOs:

All the FPOs of FEED will be registered under the Companies Act as **Producer Companies**.

Eligibility Criteria for FPO membership:

All those who are involved in production, harvesting, procurement, grading, pooling, handling, marketing, selling, export of primary produce are eligible to become the members of FEED FPOs.

Glance at the services offered to FPOs by FEED :

- To cater to the needs of FPOs by **connecting them to various STATE & central govt. schemes** &orgs like Export promotional councils/committees
- To provide **capacity building training** to FPOs for better management and Workshops on Good Agricultural Practices (GAP) to producer members
- To make them **self-sustainable** by providing domestic and International market linkages along with the **database of International buyers** from top 50 trading countries with India
- To build **awareness** on judicious and timely use of chemicals
- To provide required **quality inspection certifications** as per the export country/region
- To render **end-to-end support** in exporting their product in global markets through latest technology software
- To serve as a **guide in raising L/Cs**, taking export insurance policies, Logistic support etc.
- To provide the **technical support** in managing day-to-day activities like preparing **Monthly business plan**, annual compliances etc.
- To assess the **capital requirements & financial viability** of FPO and accordingly perform the resource mobilization and credit support
- To establish **processing units** to do value addition to FPO products to enhance their members income levels
- To provide support in marketing their products through **FEED E-commerce** and in International fairs
- To integrate **agriculture marketing infrastructure** support to the end roots and supply the farm machinery and other inputs at low costs to FPOs

FEED FPO DEPARTMENT GOALS:

- Dedicated goal towards Creation of **“One District Ten Products”** in line with the goals of “One District One Product by Central Govt.” to facilitate creation of value chain, processing and export readiness
- Ultimate focus on **“Doubling Farmers’ Income”** initiated by Central government by promoting exports through the concept of Farmer Producer Organisations (FPOs)
- Seamless effort towards **“Better Price Realisation”** by tuning the FPOs towards Direct market linkages like E-commerce, E-NAM, Futures Trading through NeML etc.
- Build the **“Self-Sustainability”** in FPOs by capacity building trainings for better management, participation in International fairs/visits for widening the exposure of their product/produce, Upgrading the FPOs through agri marketing infrastructure for value addition of their produce
- Expand the **“Export Diversification both in terms of products and destinations”** through FPOs
- Create awareness on the judicious and timely use of **chemicals amongst the FPOs** in conjunction with DACFW, DoC and the respective state government.
- Addressing other issues related to export such as **Sanitary and PhytoSanitary (SPS)** and **Technical Barriers to Trade (TBT)** barriers faced by Indian products, Establishment of a good standards regimen etc.

FEED FPO Department Responsibilities:

1.Cluster Identification through baseline survey

- Analysing the social & financial viability with the support of state & central government for the **top 10 products grown in a district**

2.Categorization of members & Registration of members in the FPO

- Applying for **Digital Signature Certificate (DSC)**
- Applying for **Director Identification Number (DIN)**
- Naming of a **Producer Company**
- Drafting **Memorandum & Articles of Association**
- Documentation support (to be submitted to the RoC) for the **Incorporation of Producer Company**
- Certificate of Incorporation**
- Supporting in tasks to be **completed immediately post incorporation** of the PC

3. Capacity building of FPO management

- Training in Good management practices for **BoDs of FPO & CEO**
- Workshop for producer members on **Good Agriculture Practices (GAP)** to align the produce towards International standards

4. Assessing the capital requirements & Financial viability of the business of FPO

- Drafting the **marketing, financial, Business plans**
- **SWOT Analysis, Risk mapping & management**

5. Resource mobilization

- Rooting the FPOs to Institutional **support & credit support**
- Connecting the **FPOs to government schemes**
- Networking for **Market, credit, inputs, agri-logistics, convergence**
- Providing **Forward & backward support** linkages by writing MoUs with the concerned organisations

6. Credit Support to FPOs

- Linking the FPOs with credit institutions like **NABKISAN, NABFINS, Public & Private sector banks**, other financial institutions

7. Post Incorporation Compliance support

- **Mandatory/Annual** compliances
- Event based compliances
- Registers to be maintained
- **Annual returns/specific** event-based returns

8. Building Awareness on Export & Creating the Export Readiness

- Conduct **Export Promotional meetings** at village/mandal level to reach the grassroots
- Arranging **A-Z Export Compliances (RCMC, IEC Number, GST etc.)**
- Ensure participation of **FPO members in International trade fairs**
- Conduct **buyer-seller meetings** to ensure better market intelligence
- Dissemination of information like market **studies, design trends, export trends, standards and specifications**, and trade enquires across FPOs

9. Exploring & Establishing the connection to emerging tailor made marketing models for FPO

- Commodities exchange
- Warehouse Receipts
- e-Kisan Mandis

10. Technical Handholding by connecting **FPO to FEED Socio-technical platform** for participation in biddings for their respective **product/produce** for better price realisation in both **domestic & global markets**

11. Regular Monitoring & Mentoring for **Self-sustainability** by assigning dedicated Expert Export Assistant to the FPOs for handling their export process with ease (**Registration, Documentation, Selection of Buyer/Market, Raising LCs, Third party inspection, Quality Certifications, Coordination with government departments for further precedence, CHA services**)

1

HS
CODES

FEED supports around **60 Agri based HS codes chapters** out of worldwide 100 HS codes chapters.

2

FEED covers around **top 1000 Agri based products** out of 11,000 products (All Products) which covers a turnover of approx. 6 lakh crores i.e., around 28% of Indian exports.

11

FEED maintains an **Updated Database of Verified International Buyers** from **Top 50 high Trading Countries** with India for the listed 1000 Agri Products.

12

FEED provides **Free Service to International Buyers** for the top 1000 Indian Agri Based Products and extends the end-to-end support in importing their products from India.

3

FEED connects with around **15 Central Government departments**, Export Based Organizations (Banks, Ports, CHAs, Export promotion councils, Commodityboards, Embassies, FIEO, DGFT, NABARD, NCDC, ECGC, SFAC etc.) to ensure updated data dissemination on export prices, govt. schemes to FEED members (FPOs, MSMEs etc.)

13

FEED connects with **NRI associations & Indian Embassies** all over the world for promotion of global trade opportunities to Indian Agri Based Products.

15

FEED conducts **EMPs in Colleges/ Universities** & offer International Trade Courses in collaboration with universities to enhance the export entrepreneurship skill development in students.

14

FEED extends its support in L.C Banking, Insurance, Logistics, Exports and other support in the product value chain to achieve the govt. agenda of "Doubling of farmer's income through FPO's".

4

FEED signs **MoU with State Governments** to develop export entrepreneurship & establish value addition units in order to enhance exports and economy of the states.

5

FEED conducts **Export Promotion Meetings (EMPs)** in all the districts of a State with the support of State & Central govt., other organizations such as NABARD, NCDC, FIEO, SFAC etc.

6

FEED forms the **Top 10 product based FPOs** based on the guidelines given by Central & State govts.

7

FEED provides **Capacity Building Training and Technical Assistance to FPOs** as per NABARD guidelines in order to make them self-sustainable

16

FEED forms **Subsidiary Producer Companies** to provide easy access to credit, input, market, production technology etc. to its members.

17

FEED with the help of its E-commerce platform enables its members to market their products directly to consumers.

8

FEED aims to make the farmers (connected through **PACS**) "Export Oriented" by informing their product potentiality in global markets.

9

FEED **Establishes Value Addition Units** and Common Facility Centres/ Procurement Centres (for Dairy, Ayush products etc.) by forming an Special Purpose Vehicle (SPV) with member FPOs and ensures the maintenance of **International Quality Standards**.

18

FEED also takes part in the **Government Tenders** and does business with other national level multi state cooperative societies/ federations.

19

FEED encourages its FPO members to participate in **International Trade Fairs** and supports them in marketing their products.

10

FEED provides **end-to-end** support to its members and FPOs in marketing the top 1000 agri products in domestic and International markets by using the latest software technology.

20

FEED conducts **Research** on various issues like Untapped demand for Indian products in global markets, Establishment of Value Addition Units etc. and submit reports to Central & State Govts. for promotion of International trade & employment

HOW FEED WORKS ...

2.EXPORT PROMOTIONAL MEETINGS (EPMs)

One of the main pillar of **FEED** is to **CONDUCT EXPORT PROMOTIONAL MEETINGS** through out India.

The meetings are conducted in every district covering all the levels:

District level, MP Constituency, MLA Constituency, Mandal and Village/PACS level.

Goal of EPMs:

To build awareness on exports and promote the export entrepreneurship among Farmers, MSMEs, small traders and entrepreneurs.

Target Audience for EPMs:

Facilitators of EPMs:

The meetings are facilitated by:

- Experts in the field of Exports with 15+ years of experience
- Heads of various government bodies and national level federations like FIEO, NABARD, NCDC, Export Promotion Councils & Boards, ECGC, Bank Authorities, Port & Custom Excise departments
- State government representatives - District Collectors, Constituency MLAs/MPs/MLCs

SESSION PLAN

1st Half		2nd Half
15 minutes – Inviting the guests, Lightning the lamp 45 minutes – FEED presentation on Services rendered to its members, Benefits of membership etc. 1 hour – Speeches by Guests/Facilitators	LUNCH BREAK (45minutes)	1 hour – FPO Product Profiling by FEED 1.5 hours – Awareness on Exports/FPOs/Government schemes by various government professionals listed above.

CONTENT COVERAGE

- Basics of Exports
- Top 10 products grown in that particular district and their potentiality in International Markets (Products may vary for every district)
- How FEED helps them to reach the potential markets, Success stories of FEED members
- Central & State Govt. schemes
- Prominence of various departments like Customs, Banks, ECGC, FIEO, Quality Control etc. in Export process by respective heads

1.Outcomes of EPMs:

- To showcase the export opportunities to the target audience/participants & FPOs for their products in global markets through FEED'S unique software platform
- To provide an overview of export process & EXIM documentation
- To build confidence in participants (Especially in farmers) to explore International markets
- To build export entrepreneurship in farmers, new entrepreneurs, MSMEs & students
- To provide awareness on various STATE & Central government schemes introduced for FPOs/MSMEs/Exporters

2.FEED provide end-to-end support throughout the Export process

- To serve as a one stop solution to export familiar and non-familiar members in Export process
- To provide the database of verified International buyers from top 50 trading countries
- To provide the best prices for their products in International markets
- To serve as a guide in raising L/Cs, taking export insurance policies, Logistic support etc.
- To support the members with end-to-end hassle free documentation in the entire export process
- To provide required quality inspection certifications as per the importing country standards

3.Provide Export Education and Employment to Rural youth

- To educate students from rural and semi-urban areas on the importance of exports,international trade, Logistics courses
- To connect them to International trade & export related and agri-based courses offered by various agri/commerce universities and institutions
- To provide employment opportunities for local youth as volunteers in assisting the farmers in FPOs
- To offer advance courses in Exim documentation and skill development courses for job opportunities

3.EXPORT PROCESSING SOFTWARE

At FEED we aim to connect the grassroots to the skies by adopting technology at every instance...

Using the software technology, we help the FPOs, MSMEs & Entrepreneurs to extend their market access to larger world markets which enables them to increase their output and employment more swiftly.

FEED software enables the students and unemployed youth to develop export entrepreneurship in them through skill development courses on International trade and Export management etc.

FEED SOFTWARE ELEMENTS

My FPOs: Members of FEED have the privilege of joining in multiple FPOs based on their product viability. This feature gives the glimpses of the FPOs a member is registered into.

My products: FEED believes in diversification of products and markets. With this feature a member can explore various other business-oriented products (other than the FPO products) surrounding his area.

My business deals: This feature enables the member to check the business deals with the products he is associated with. Posting buy/sell requirements is also available in this feature.

My opportunities: FEED tunes every business opportunities to its members. This feature enables the member to check for any business opportunities in his area for the chosen product(s).

My education: FEED aims to make the FPOs self-sustainable by educating its members at par with the business. This feature enables the member to know about his product potentiality in domestic and global markets.

My tools: Ease of doing is what FEED brings in at every step for its members. Necessary tools like GST calculator, Rate of Interest calculator and those tools which are handy for exporters are included in this feature.

Services provided to FPOs & members through FEED Software Platform:

- Enables the FPOs to reach distant markets by direct connection with International buyers from **top 50 high trading countries for top 1000 agri commodities** through live biddings into their smart phones
- **End-to-end export** documentation support
- **Buy/Sell products** and reach the consumers directly through FEED E-commerce
- Enables access to dynamic information on prices in both **domestic & global markets**
- **Live tracking of the shipment**
- Know the complete information of FPO products starting from Good agricultural **practices, Crop calendar, export** process to Quality certifications expected in global markets for their products through **FEED's unique PRODUCT PROFILING GUIDE**
- Easy access to handy tools like GST calculator, Rate of Interest **calculator, Logistics calculator, Export-duty calculator** etc.
- Access to additional **domestic opportunities provided by government agencies** and FEED in the vicinity of their area
- Operations management and better internal governance like making business **plans, filing returns** and other annual compliances
- Connectivity to similar **producers/MSMEs/Entrepreneurs** all over the country
- Updated information on both **central & state government schemes** from various ministries

Services provided to International buyers through FEED Software Platform:

- Get the best **price & quality product leads at no-cost** from India (FPOs/MSMEs/Entrepreneurs)
- Import country trade relations and other **export-import regulations** imposed by India
- **A complete know-how of their product imported**
 - o Farm location
 - o Cropping information along with fertilizers used
 - o Number of days for crop output, Crop calendar
 - o Value addition steps like Cleaning, grading, sorting, packing etc.
 - o Certifications possessed, if any
- **Live tracking** of the shipment
- Easy access to handy tools like **Logistics calculator, Import-duty calculator** etc.

Services provided to Students & Unemployed youth through FEED Software Platform:

- Access to EXIM education **courses – International trade, Export – Import management, Documentation** etc.
- Information on job opportunities in any of the **Central/state government, public & private companies** and Internal FEED office locations
- Access to "Train the Trainer Course" in order to become a trainer of FEED in **Export Promotional Meetings conducted all over the country**

4.CENTRAL & STATE GOVERNMENT LAISONING

FEED believes that establishing a proper connect with Central/state governments departments and other apex bodies helps us to channelize the issues faced by exporters in real grounds, thus we can easily bridge the gap between the ground level participants & governments.

If we look at the country-level analysis for Export Preparedness given by NITI Aayog, the statistics show that India has scored an average of 39 on the index. This shows the **tremendous potential that India holds towards transforming into an export-based super-economy.**

Our aim is to develop India as an agriculture export powerhouse by...

1)Building a market intelligence system which is linked from **FARM (FPOs) TO FOREIGN (INTERNATIONAL MARKETS)**

2)Bridging the gap between Central & State governments and FPOs...

Country-Level Analysis

FEED has set its objective to bridge the gap between the State governments & Central government by being the representative of Primary producers through FPOs in multi states.

FEED serves as a platform to connect its members (Farmers, MSMEs, Agripreneurs, New Entrepreneurs) with the International markets, Central & State government ministries, Export Promotional Councils, Commodity boards,Banks & other financial institutions, Port Authorities.

Dynamic data dissemination (to the village level) gathered from various State & Central government ministries and other apex bodies will be done as a part of this dedicated department/pillar of FEED.

All the schemes, policies introduced for FPOs/Cooperatives/MSMEs/Entrepreneurs are translated into local languages for better transparency & readability.

For this FEED connects with around 15+central government departments signs MoU with all State Governments to develop export entrepreneurship & establish value addition units in order to enhance exports and economy of the states and nation.

We also sign MoU with Export Based Organizations (Banks, Ports, CHAs, Export promotion councils, Commodity boards, Foreign Embassies, FIEO, DGFT, NABARD, NCDC, ECGC, SFAC etc.) to ensure updated data dissemination on export prices, govt. schemes to FEED members (FPOs, MSMEs etc.)

FEED also connects with Indian Embassies in foreign countries for the promotion of Indian agri products and trade. Along with this, FEED serves as a platform to establish the connection with all the NRI/Indian associations in Foreign countries around the world with the ground level FPOs in India.

In addition to these, FEED connects with National & International banks for credit rating of International buyers in their respective countries. Port, Customs, Custom House Agents are also connected with the FPOs for smooth processing of the export orders and transparency.

As a part of its objective, FEED deals with various ministries of Central & State government including:

- Ministry of Agriculture & Farmers Welfare
- Ministry of Commerce & Industry
- Ministry of Food Processing Industries
- Ministry of External Affairs
- Ministry of Finance
- Ministry of Micro, Small & Medium Enterprises
- Ministry of Fisheries, Animal Husbandry and Dairying
- Ministry of Human Resource Development
- Ministry of Shipping
- Ministry of Skill Development and Entrepreneurship
- Ministry of AYUSH
- Ministry of Textiles

RECENTS BILLS and ACTS of Central Government to support Farmer Income Doubling through Agri Exports:

1. AGRI EXPORT POLICY – 2018
2. ATMANIRBHAR BHARAT ABHIYAN- PACKAGE -3 FOR AGRI INFRASTRUCTURE 
3. NITI Aayog recommendations on FARMER INCOME DOUBLING.
4. Promotion of 10,000 Farmer Producer Organisations BY 2027-28
5. The Farmers' Produce Trade and Commerce (Promotion and Facilitation) Bill 2020
6. Farmers (Empowerment and Protection) Agreement of Price Assurance and Farm Services Bill, 2020.
7. Essential Commodities (Amendment) Bill.
8. NITI Aayog Report on Export Preparedness Index 2020

Other than these ministries, FEED also deals with other Central & State government agencies like:

- Federation of Indian Export Organisations (FIEO)
- Export Credit Guarantee Corporation of India (ECGC)
- Agricultural and Processed Food Products Export Development Authority (APEDA)
- Marine Products Export Development Authority (MPEDA)
- Directorate General of Foreign Trade (DGFT)
- Indian Institute of Foreign Trade (IIFT)
- Indian Institute of Packaging (IIP)
- National Accreditation Board for Testing and Calibration Laboratories (NABL)
- Quality Council of India (QCI), Export Inspection Council (EIC)
- Export Promotion Councils (EPC)
- Commodity Boards
- Indian Ports Association (IPA)

FEED for the benefit of its members connects with other government apex institutions which assists cooperatives/producer companies in the form of loans/grants such as:

- National Bank for Agriculture and Rural Development (NABARD)
- National Cooperative Development Corporation (NCDC)
- Small Farmers' Agri-Business Consortium (SFAC)

RECOMMENDED STRATEGIES ON EXPORT PREPAREDNESS OF STATES BY NITI AAYOG AND FEED'S ACTION PLAN

Sub-Pillar of Export Preparedness	Key Areas of Concern	Recommended Strategies by NITI Aayog	FEED's Action Plan
Trade Support	Number of projects approved under TIES; Membership of Exporters in State Export Council; Capacity building & Orientation workshops.	States need to encourage more exporters to be part of state export councils by undertaking active membership drives. Furthermore, due to the fragmented nature of firms in India, they often lack the necessary capacity to navigate complex export deals in International markets. They may also lack adequate knowledge about necessary risk mitigation or risk management strategies associated with exports. In this regard, states should create capacity workshops, perhaps in partnership with institutes of foreign trade and management, to help exporters actively benefit from potential export market opportunities.	FEED, being multi state cooperative society, formed exclusively for enhancement of exports, has set its objectives which are inline with the recommendations given by NITI Aayog. FEED forms product-based FPOs in every state. Every FPO formed are provided handhold support in exporting their products. They are linked with 15+ Central & state government ministries, apex bodies, banks, ports etc. for export guidance and transparency to various schemes introduced by central & state governments. The FPOs are further provided capacity building trainings & workshops to orient them to global markets.
Growth & Orientation	Low export to GSDP ratio; Increase in number of exporters.	Export to GSDP ratio is an outcome variable and cannot be impacted by specific strategies. It is expected that when states would re-orient their economic policy to engage better in export markets, the share of exports in GSDP would gradually increase. However, states should actively encourage more firms, especially MSMEs, to participate in exports by improving their trade support policies.	One of the main objective of FEED is to encourage exports from Farmers/MSMEs/New entrepreneurs from rural & semi-urban areas by connecting them with International markets using socio-technical software platform. As a part of the export guidance, FEED informs and encourages its members (Farmers/MSMEs/New Entrepreneurs) to participate in the International fairs conducted all over the country for better market exposure.
R&D Infrastructure	Low number of NABL accredited labs and inspection agencies.	As globalization evolves, increased R&D in products and operational processes would be of key importance in being competitive in the export markets. One low hanging fruit is to get accreditation for the existing testing facilities in a state by retrofitting them to the national standard. Another step could be encourage more research in state government universities on relevant issues that can influence the export potential of the state.	FEED conducts Research on International Untapped demand for Indian products, Product Based FPO formation, Establishment of Value Addition Units, Supply Chain guidelines and related matters and submit the same to the Central & State Govts. for promotion of international trade & employment.
Export Infrastructure	Absence of online portal; Absence of Trade guides for potential exporters; Low number of Agri-export zones	While the creation of new agri-export zones will depend on the overall export policy of individual states, all states are strongly encouraged to create an online trading portal providing exporters a single window for accessing all trade related information. Exporters, especially agri-exporters and MSMEs should be able to access market intelligence to truly compete with firms globally. They are often unable to undertake such exercise by themselves owing to their fragmented nature and lack of knowledge resources.	FEED serves as a one-stop solution for the export needs for its members. The members are guided right from the selection of product/market/buyer to sending the shipment. FEED holds a database of verified international buyers from top 50 trading countries with India, thus leveraging the members (Farmers/MSMEs/New entrepreneurs) to market their product at best prices in global

WHO CONNECTS WITH FEED?

FEED deals with 4 segments of people in its operation:

Segment

1

FPOs, Farmers,
Small Traders, MSMEs,
Entrepreneurs

Segment

2

International buyers,
Indian Embassies
NRI associations abroad.

Segment

3

Central Govt, State Govts,
EPB, NABARD, NCDC, DGFT,
SFAC, FIEO, CHAs, Ports.

Segment

4

Students, Universities,
Skill Develop Orgs,
Unemployed Youth.

FEED OFFICE LOCATIONS

FEED being MSCS Org operates in every district of its functional states in India and reaches to all corners of the country for the social and economic betterment of its stakeholders.

1. Corporate office at New Delhi.
2. Head Office @ All State levels, All District level.
3. High turnover Market yards.
4. Common Facility Centres at Mandal levels.
